

Monthly Updates

ACTIVITY FOR THE MONTH OF JUNE 2020

To all of our Dear Friends, Clients and Colleagues,

These are uncharted times we live in at the moment.

The team at JJ Marine Indonesia wants to wish everyone that they, their families and loved ones are safe and stay well.

We know things maybe a little bit different right now, but we are still operating as usual, while doing our part in mitigating the spread of COVID 19 by practicing physical distancing.

We are happy to inform you that "The first dedicated 1 stop marine spare parts on line shop" is in development. We are currently doing website revamp and development features of JJ Marine Indonesia to provide boat spare parts online sales on our web.

JJ Marine Indonesia can assist your every need on marine spare parts & chandlery. Most items that are not held in stock can be supplied the next days.

Our Chandlery Department has many stocks of the sports boat essentials such as engine products, fenders, warps, a multitude of cleaning and boat care products.

We are ever always on call for anyone to contact us should they need any support, advise or solace.

Best Regards,
